**RE: NOTICE OF CONSTRUCTION FOR CITY OF TUCSON PROJECT:  
COLUMBUS WASH DRAINAGE IMPROVEMENTS**

Clear Contracting Company has been contracted by the City of Tucson to complete the following work:

- Improve drainage on Catalina Ave & Belvedere Ave. by installing a new underground drainage system between these 2 streets via Lester St.
- Utility Improvements at various locations on Catalina Ave, Belvedere Ave, & Lester St. including sewer, water, and drainage upgrades.

Light construction activities including utility investigation are scheduled to start on or about September 12, 2016 with major construction getting underway the following week. Work is scheduled to be completed 3 months from the start date barring weather, utility conflicts or other unforeseen conditions. Our general work hours will be between 7:00 A.M to 7:00 P.M Monday to Friday. If for some reason work needs to be performed outside these hours we will notify you of the change.

The current planned sequence of construction activities will be as follows:

- Complete the new sewer improvements on Lester St. from Catalina to Belvedere.
- Complete the drainage improvements on Belvedere in the vicinity of Lester St.
- Waterline improvements on Catalina.
- Install New Drainage Structure on Lester.

Lane or street closures may be necessary at times during the work; however, we will attempt to minimize the disruption to the greatest extent possible and will notify you of any temporary vehicular or pedestrian closures as well as any temporary utility shutdowns. During some of the work access to driveways may be limited and you may have to park your vehicle away from your home. All utility shutdowns will be short term and you will be notified at least 24 hours in advance.

For further information about this project, please call Beth Abramovitz at the City of Tucson at (520) 837-6656 or Chris Hoey at Clear Contracting at (520) 784-8433.
