This is an important opportunity for area businesses, residents, neighborhoods and other interested members of the public to discuss future access from and onto Grant Road.

Participants will learn about and provide input on how drivers will enter and exit the improved roadway, using new median openings and shared driveways along the new Grant Road. Participants will also have an opportunity to provide input on the preliminary design and use of streetscape, landscape, and public art in areas that can help enhance access, safety, and create a pedestrian-scaled environment.

Members of the Citizens Task Force and Project Team will be in attendance to hear your input and answer questions.

**These workshops include presentations and small group activities.**

To help us accommodate all who want to participate, please RSVP for the workshop you would like to attend by calling (520) 624-4727 or e-mail [information@grantroad.info](mailto:information@grantroad.info).
